

Hinge Offset Measurements

All garage door hinges have a specific offset/rise for each position. Please review the diagram and information below to understand the offsets and difference in position numbering.

To measure the offset measure from the bottom of the hinge to the cross section of the roller wheel tube location. Below is a reference to ensure you have the correct Green Hinges to replace your OEM hinges.

Existing Hinge Offset Height	Green Hinge Required
0.80" or 2.03cm	#1 Hinge Position
1.05" or 2.67cm	#2 Hinge Position
1.30" or 3.30cm	#3 Hinge Position
1.55" or 3.94cm	#4 Hinge Position
1.80" or 4.57cm	#5 Hinge Position
2.05" or 5.21cm	#6 Hinge Position
2.30" or 5.84cm	#7 Hinge Position
2.55" or 6.48cm	#8 Hinge Position
2.80" or 7.11cm	#9 Hinge Position
